

QWG Dashboard

What will it achieve?

Provide information on where we are in the Metrics implementation process.

Who needs to provide details?

Respective metric's implementation owner will have to provide regular updates by email or wiki page.

Where will the Dashboard be seen?

In the Quality metrics wiki page.

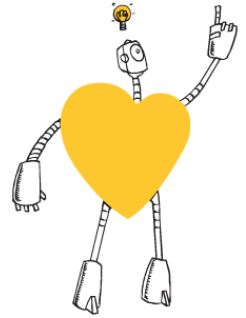

http://developer.symbian.org/wiki/index.php/Quality_Metrics

How frequent will it be updated?

As and when metric owners make progress. And also before/after a QWG conf. call / meet.

QWG Dashboard

Metrics implementation stages

To make it easy to measure progress, each metric implementation may go through a short list of stages.

Stage	What it means
Initial	Metric is identified for implementation and draft yet to be published.
Design	The draft implementation details have been published in wiki by Metric owner.
Pilot	A pilot implementation is available & working. Pilot will be subject for usage, reviews and further discussions.
Completion	Implementation is considered complete for this metric
